

NESS – Photos of Installation Evidence

- Please take photos for EACH unit **before & after installation**.
- Each unit is required to have **3 photos** :
 1. Before installation
 2. After installation
 3. Details of appliance rating plate
- Please use GPS Map Camera app to take geotag photos.
(Suggested App : GPS Map Camera)

===== How to take photos =====

1. Before installation

One photo of the space where the unit will be positioned at the implementation address.

- If replacing an existing refrigerated appliance, please take a photo of the space **with the existing unit**
- If installing a new refrigerated appliance, please take a photo of **the empty space**

2. After installation

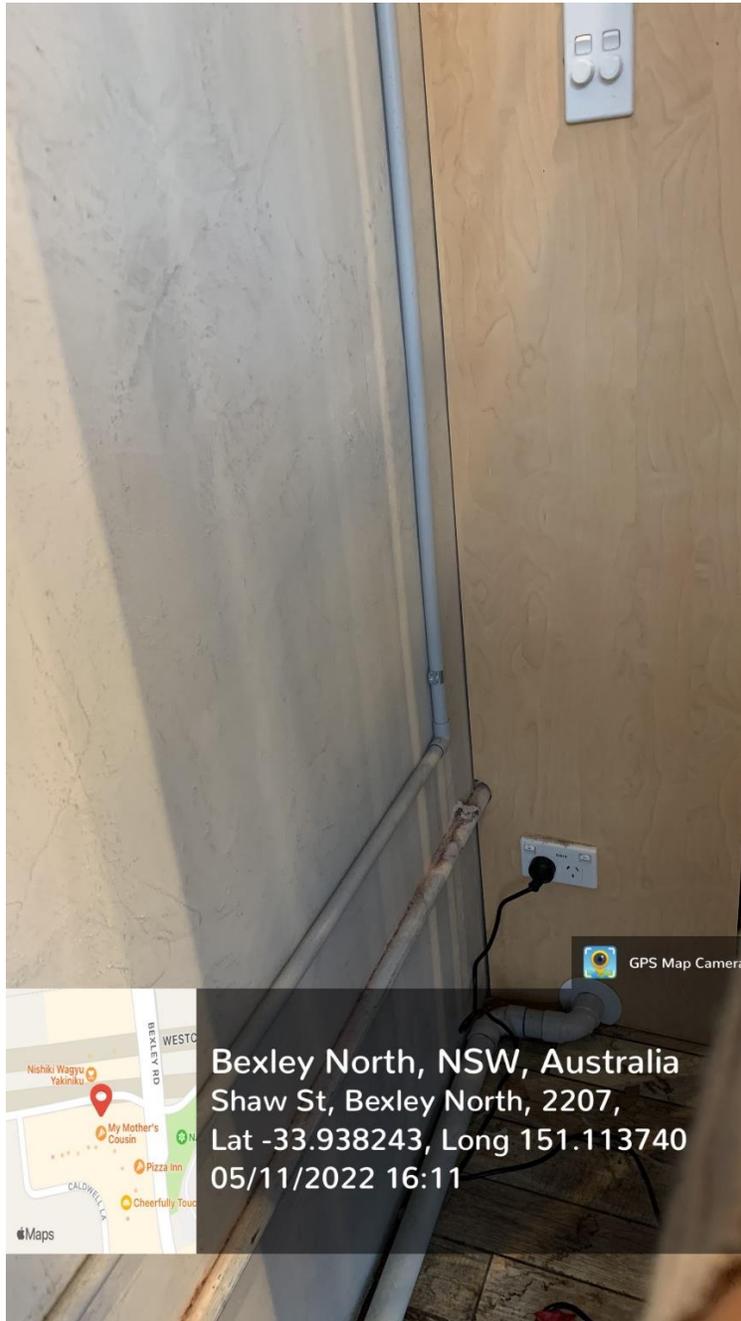

One photo of the appliance showing the cabinet in-site at the implementation address. The appliance needs to be fully unpacked and positioned.

3. Details of appliance rating plate

One photo of the appliance showing the fridge's Make & Model at the implementation address

Example photos :

1. Before installation (empty space)

2. After installation

3. Details of appliance rating plate
